**Case No. 73-3347**  
**David William Hilligiest**

June 7, 2010

The original autopsy, death certificate, and investigator's report were not in the Autopsy Case File on Jun 6, 2010. The only documents in two separate envelopes were copies of orders requesting the exhumation of the remains in Georgia.

In 2001 the Medical Examiner's Office created files on the Coryl – Henley – Brooks murder victims with the intention of identifying the unknown remains. 3 copies of the autopsy were located in this file, all of them with different records attached.

The file with the most complete amount of information has been digitized and follows as the PDF file.

The autopsy report that has marks indicating it was in the original case files, as been returned to the autopsy file with a copy of this note.

Other information that may have come from the autopsy files has been left in the files created by the Medical Examiner's Office in 2001.

Case 73 - 3347

August 11, 1973

PATHOLOGICAL DIAGNOSIS ON THE BODY

OF

David William Hilligiest  
402 West 27th Street  
Houston, Texas

Asphyxia due to strangulation.

OPINION

It is our opinion that the decedent, David William Hilligiest, came to his death as a result of asphyxia due to strangulation - Homicide.

It is our further opinion that the time of death was on or about May 29, 1971.

COMMENT: Initially, the clothing which Mr. Everett Waldrop positively identified as belonging to his sons, Donald Wayne and Jerry Lynn, were submitted with the skeletal remains of Unknowns #9 and #10. The amalgam filling in tooth number 30 matched the description furnished by him for Donald and since the other skeletal criteria also were consistent with the size and age of his two sons, the skeletal remains of Unknowns #9 and #10 were released to him and interred in Georgia.

Subsequently, during the continuing process of identification of other victims, the antemortem X-rays submitted

by Dr. Robert H. Shame were compared to the postmortem radiographs of the jaws of Unknowns #9 and #13. It was then determined that the skeletal remains of Unknown #9 were actually those of David William Hilligiest and Unknown #10 were those of Gregory Malley Winkle, Unknown #13 were those of Donald Wayne Waldrop, and Unknown #14 were those of Jerry Lynn Waldrop.

On September 7, 1973, the appropriate parties were informed of the misidentification. The necessary steps were initiated to exchange the respective skeletal remains. This was accomplished during the week of September 17, 1973.

POSTMORTEM EXAMINATION ON THE BODY OF

David William Hilligiest  
402 West 27th Street  
Houston, Texas

HISTORY: The skeletal remains were discovered among seventeen bodies at 4500 Silverbell Street, Stall #11, Houston, Texas, between 6:00 p.m. on August 8, 1973, and 8:00 p.m. on August 9, 1973. These skeletal remains were found together with Unknown #10, in the center of Stall #11, at approximately 1:00 p.m. on August 9, 1973.

AUTOPSY: The autopsy was performed by Chief Medical Examiner Joseph A. Jachimczyk, M.D., assisted by Dr. Paul G. Stimson, beginning at 1:00 p.m. on August 11, 1973, in the Harris County Morgue.

EXTERNAL APPEARANCE: These remains consisted of a skull with dark brown hair with a maxilla attached and a separate mandible and a number of bones and soft tissues. Also present were a pair of white with black striped sneakers in the left sneaker of which there was the word "SANFORIZED". Beneath the word "SANFORIZED" appeared to be the word "PENNEY'S". The sneaker sole measured 11 inches in length. There was an attached portion of pelvis and two femurs, two ulnas, several vertebrae, two scapulae and a number of ribs. There was a blue stretch cotton sock with terrycloth-like finish. The right femur measured 16-1/2 inches in length. The left femur measured 16 inches in length. A portion of cord was wound around the neck area. X-rays did not disclose any bullets in the skeletal remains.

DENTAL EXAMINATION

Utilizing the Universal System, there was an occlusal amalgam in the upper left first molar, tooth 14. There was an anterior open bite, tooth 8 overlapped tooth 9 on the mesial. All third molars were in their crypts. Tooth 24 was crowded to the lingual, tooth 27 was rotated to the mesial-labial, tooth 25 was lapped over tooth 26.

At the request and in the presence of Chief Medical Examiner Joseph A. Jachimczyk, M.D., on September 9, 1973, I compared the postmortem dental X-rays with the antemortem dental X-rays submitted by Dr. Robert H. Shame and demonstrated this to Mr. and Mrs. Hilligiest. I overlay the antemortem and postmortem jaw radiographs. The outline of the occlusal filling matched exactly on the antemortem and postmortem radiographs. The shape of the teeth, the root structure, the pulpal configurations also matched exactly. This was equivalent to the antemortem and postmortem negatives superimposed. They matched perfectly. Mr. and Mrs. Hilligiest accepted the fact that the remains were those of their son, David.

**DETAILS OF OFFENSE, PROGRESS OF INVESTIGATION, ETC.**

3-71 2:40PM Sgt. Adams, and Det. Fowkes met with Mr. & Mrs. Hilligest in Inspector Waycotts office to discuss. Mrs. Hilligest stated she wanted to be sure no stone was unturned in finding David. She was advised that David's pictures was in DFB bulletin, his pictures was on Channel 13 TV and all leads had been investigated.

She stated she felt that Gregory Malley Winkle (M)(13) who is on Probation at this time might know where David is staying as Gregory was with her son when he disappeared. She stated she has talked with Gregory's Mother and she asked Mrs. Hilligest not to report David to the Police because if Gregory was picked up with David he would be sent to Gateville for violation of probation. She stated she had talked with Mr. Johnson and Mr. Clark of probation who have worked with Gregory in the past, but nothing was learned that helped in the investigation.

Mrs. Hilligest stated that they hired a private investigator and paid him 1300 and could not pay him anymore and took him off the case. She stated the private investigator turned up a lot of information that narcotics were involved with the people David had been associated with. She stated David was the weakest of her six children and had been on medication (Dilantin) for some time for nervous stomach and headaches.

Inspector Waycott advised her the Police had done all they could and would continue to investigate all leads.

Since it was discussed that David might be mixed up with a group of boys involved with Narcotics in the Oak Forrest area, full description and picture of David was sent to North Shepard Sub station with a request this be read to all roll calls, and posted on the bulleting board.

Officer checked and found juvenile record on Gregory Malley Winkle, DOB 1-24-45 107 West 26th, Houston. Subject handled three times, 6-17-70 Motor Dracking and Enter Coin Oper. Mach., Ref Probt; 3-10-71 Trespassing, Ref to Prob. and 1-16-71 Burg Sus 3-Theft Placed in Ward, ref to probation.

Have Pat H. Foley get 2 new burial transit permits. Fill in the correct names of the Waldrop boys. Take these 2 permits with us and turn them over to the funeral director in Georgia when we arrive.

Mr. Garrett stated that the local registrar in Atlanta should give up 2 permits to remove the bodies from Atlanta to Houston.

We are to call Mr. Garrett as soon as we arrive back in Houston, then the correct death certificates will be filled out by the funeral homes and be filled with him (Mr. Garrett.)

Mr. Garrett said to be sure and let Pat H. Foley F. Home get the removal-burial permits to take with us before we leave Houston.

Get the funeral home in Atlanta to have the permits ready for us so we can bring these bodies back to Houston with the permits issued in Atlanta.

LOUIS JONES FUNERAL HOME, ALPHARETTA, GEORGIA.

Mr. Garrett called back at 3:40 P.M. and stated that it would be a good idea to have a letter written by him explaining this situation and take the letter with me in case we are stopped by the Highway Patrol.

COUNTY OF HARRIS    X

I, the affiant, do duly swear I am Joseph A. Jachimczyk, Chief Medical Examiner in Houston, Harris County, Texas.

Pursuant to the authority vested in me under Article 49.25, Texas Code of Criminal Procedure, I hereby authorize Mr. James L. Turner, licensed funeral director, to transfer the remains of Donald Wayne Waldrop and Jerry Lynn Waldrop to the Louis Jones Funeral Home, in Alpharetta, Georgia, and there to exchange these two with the remains previously buried in Georgia under mistaken identities. It has been determined conclusively that the remains in Georgia are really those of Gregory Malley Winkle and David William Hilligiest of Houston, Texas. Accordingly, consider this as authority to return those bodies from Georgia to the Harris County Morgue, for re-examination and subsequent release to their respective families.
